An inspiration
Goes beyond involute and piled-up elements;
Coagulation from a point,
The elegance stretches out evermore...

Integration of the transparent
glass and the frame made of black steel;
Through the connection of the metal casting,
diversified combinations of CPU holder,
modesty panel and wireway are available.
Trolley and credenza make your
work easygoing.

OFFICE FURNITURE SERIES
TITAN

The sphere and round supports are the extensions of points and lines...

Movable pedestal leaves more space.

Side cabinet is artistic with practicality.

A marvelous layout of succinct and smooth lines is seen everywhere;
Thus make you enjoy your work.

Side cabinets and credenza with fixed glides or movable rollers are available.

Integration of steel and wood exhibits an extraction from and surmounting over the traditional style; Independent and simple combinations of Executive table, credenza, wardrobe storage cabinet and side cabinet bring out elegant and stylish office environment.

With integration of practicability and elegance by designers, Conference table with four supports shows a strong sense of line and modern style; Combination of high-strength, omnidirectional and adaptive glides and conical legs goes beyond the extension of points and lines.

OFFICE FURNITURE SERIES
TITAN

TITAN office tables offer simple and practical features. The optional CPU holder, wireway, modular, vertebra cable duct and modesty panel are easy to install.

TITAN office tables are tailored for your environment or space requirements. Executive tables and conference tables are derived from the same frame structure.

Multiple color choices are available for 40mm thick wooden veneer table top, and cable troughs are optional.

The 12mm thick table top is made of tempered glass, and the edges of the surface are polished, with delicate and smooth lines.
